

SUPPLEMENT INSTRUCTIONS

The following instructions will help you answer Questions 1-19. If you answer “yes” to any of these questions, you must also fill out the supplemental pages. Read these instructions and the supplemental pages carefully. Your application may be delayed if you fail to provide all the information requested.

This portion of the application is not a public record, and is held as confidential information unless you expressly authorize the Board to release it to a particular party. Under the law, the Board may also share this information with legally designated agencies, such as other state licensing boards and law enforcement agencies. Designated agencies are required to maintain the confidentiality of this information consistent with the law.

1, 8-A and 8-B. Disciplinary action: A confidentiality agreement does not absolve you of your requirement to answer Question 8. If you answer “Yes” you must also complete the supplement.

For the purpose of answering Question 8, the terms listed below have the following meanings:

An “investigation” is any inquiry conducted by a private or governmental authority concerning you.

This question includes, but is not limited to, investigations, reviews, and inquiries conducted by: hospitals, clinics, nursing homes, health insurers, medical malpractice insurers, professional associations, federal agencies, and state agencies. This question includes investigations, reviews, and inquiries conducted by the Massachusetts Board of Registration in Medicine and its sub-Committees, including the Data Repository Committee and the Complaint Committee.

You do not need to report investigations of an entire facility or department. For example, an annual departmental review of complication rates is not a reportable investigation within the meaning of this question because your activities have not been singled out for review.

A “governmental authority” refers to any federal, state, county, or municipal governmental entity, including but not limited to: any medical licensing board (including Massachusetts), any agency regulating health care quality, any medical assistance authority, any regulatory authority investigating insurance fraud, and any agency that regulates the possession, dispensing, and prescribing of any controlled substances.

A “health care facility” refers to any hospital (including federal, state, county, and municipal hospitals), clinic, prison infirmary, home for unwed mothers, nursing home, or health maintenance organization. For the purpose of this question, a health care facility includes a post-graduate training program.

“Group practice” refers to any association of healthcare professionals organized for the delivery of patient care of which you are a member or partner or by which you are employed or with which you have a contract for professional services, including a partnership or limited liability partnership, limited liability company, professional corporation, or other professional business organization.

“Disciplinary action,” as defined in the Board’s regulations, is an action which adversely affects a licensee. The action can be formal or informal, oral or written, and voluntary or involuntary.

Disciplinary actions that are always reportable to the Board include, but are not limited to, the following or their substantial equivalents: revocation of a right or privilege, suspension of a right or privilege, censure, written reprimand or admonition, fines, and required performance of public service.

Disciplinary actions that are sometimes reportable to the Board include, but are not limited to, the following or their substantial equivalents: restriction of a right or privilege, non-renewal of a right or privilege, denial of a right or privilege, resignation, leave of absence, withdrawal of an application, and termination or non-renewal of a contract. These actions are reportable to the Board if they arose, directly or indirectly, from the licensee's competence to practice medicine, or from a complaint or allegation regarding any violation of law, regulation, or bylaw.

For example, non-renewal of a medical license in another state based on the licensee's cessation of practice there is not a disciplinary action.

For example, a leave of absence taken for family reasons or for illness is not a disciplinary action.

For example, termination or non-renewal of an employment contract due to relocation is not a disciplinary action.

A course of education, training, counseling or monitoring is reportable to the Board as a disciplinary action only if it arose out of the filing of a complaint or other formal charges reflecting on the licensee's competence to practice.

2-B. Probation in medical school or any postgraduate training: You must report a probation in medical school or any postgraduate training program, regardless of the reason for the probation.

6-A. Medical license application withdrawal or denial of medical license: You should answer "yes" if you withdrew your application after learning that your license application probably would not be approved or would be approved only with conditions or restrictions. You do not need to answer "yes" if you withdrew your application solely because of a decision to relocate that was entirely unrelated to anticipated rejection of your application, or if you let your license lapse because you no longer practice medicine in that jurisdiction.

6-B. Voluntary surrender of license: You must report any surrender of a license to a licensing board or other governmental agency. You do not need to answer "yes" to this question if you let your license lapse because you no longer practice medicine in that jurisdiction.

8-A and 8-B. See 1 above.

9-A, 9-B, 9-C, and 9-D. Medical staff membership, status and privileges: You must answer these questions about your medical staff status at any health care facility at which you have ever had membership or privileges. You do not need to include information about your tenure at health care facilities as a medical student or resident.

10. Criminal proceedings: Being "charged with a criminal offense" includes being arrested, arraigned or indicted, even if the charges against you were dropped, filed, dismissed or otherwise discharged. You must also report: convictions for felonies and misdemeanors; *nolo contendere* pleas; matters where sufficient facts of guilt were found; matters that were continued without a finding even if they were ultimately dismissed; and any other plea bargain. A medical malpractice claim is a civil, not a criminal, matter. A charge of Driving Under the Influence is not a "minor traffic offense" and should be reported.

11. Controlled substances privileges: You do not need to answer "yes" if you permitted your state and/or federal license(s) to expire solely because you decided to relocate and your decision to relocate was entirely unrelated to allegations of wrongful or otherwise irregular prescription practices.

12, 13 and 14. Medicare, Medicaid and third party payors: If you have been restricted from participation in a state or federally funded health care plan or third party plan or if your membership has been terminated, you must answer "yes."

15-A. Malpractice claims: You must report all malpractice claims, whether or not they resulted in lawsuits and whether they are pending or have been resolved. You must answer "yes" even if you were

named in a case or claim and subsequently dropped from it or the case or claim was dismissed with no finding against you or payment made on your behalf. You must report all cases or claims filed or heard in any state.

15-B. Non-malpractice lawsuits: You must report certain lawsuits filed against you even if they do not allege malpractice. Examples include, but are not limited to, lawsuits filed under consumer protection, antitrust, civil rights, fraud, or intentional tort (e.g. libel, interference with contractual relations) laws. You must report only those suits relating to your competency to practice medicine or your professional conduct in the practice of medicine.

16-A and 16-B. Medical condition: “Medical condition” includes physiological, mental or psychological conditions or disorders, such as, but not limited to orthopedic, visual, speech, hearing and memory impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cerebrovascular disease, cognitive disorders, cancer, heart disease, diabetes, emotional or mental illness, specific learning disabilities, HIV disease, tuberculosis, drug addiction and alcoholism.

“Ability to practice medicine” is to be construed to include all of the following:

1. The cognitive capacity to make appropriate clinical diagnoses, exercise reasoned medical judgments and learn and keep abreast of medical developments; and
2. The ability to communicate those judgments and medical information to patients and other health care providers, with or without the use of aids or devices, such as voice amplifiers; and
3. The physical capability to perform medical tasks such as physical examination and surgical procedures, with or without the use of aids or devices, such as corrective lenses or hearing aids.

“Currently” does not mean on the day of, or even the weeks or months preceding the completion of this application. It means recently enough to have an impact on one’s functioning as a licensee, or within the past two years.

17. Use of Chemical Substances: “Chemical substances” is to be construed to include alcohol, drugs or medications, including those drugs or medications (controlled substances) taken pursuant to a valid prescription for legitimate medical purposes and in accordance with this direction, as well as those used illegally. Illegal use of controlled substances includes use of substances obtained illegally (for example, heroin or cocaine) as well as the use of substances in an illegal manner (for example, use of prescription drugs which are obtained without a valid prescription or taken not in accordance with the directions of a licensed health care practitioner).

18. Illegal use of drugs: See definitions above.

You have a right to elect not to answer the above question if you have reasonable cause to believe that answering may expose you to the possibility of criminal prosecution. In that event, you may assert the Fifth Amendment privilege against self-incrimination. Any claim of the Fifth Amendment privilege must be made in good faith. If you choose to assert the Fifth Amendment privilege, you must do so in writing. Your full license application will be processed if you claim the privilege.

19. Voluntary modification of scope of practice: Describe any voluntary modification of or limitation to your scope of practice not covered by Questions 16-A and 16-B, and the reasons for it.

A Note to the Physician who is Chemically Dependent

If you are chemically dependent, the Board encourages you to seek assistance voluntarily. When the Board receives notice of impairment or dependency, its policy is to protect the public but also to ensure rehabilitation through the physician's participation in approved treatment programs and supervised, structured aftercare. The Board's Chemically Dependent Physician Policy relies on cooperation between the Board and groups like the Massachusetts Medical Society's Physician Health Services to ensure successful rehabilitation.

PLEASE NOTE: If you answered “yes” to any of Questions 1-19, you must also fill out the supplemental pages.
